

# Instant air purification.

## Clean air where & when you need it

### Traps 99.995% of particles

RediAir uses two advanced composite HEPA 14 & carbon filters to trap particles less than 0.3 microns in diameter.

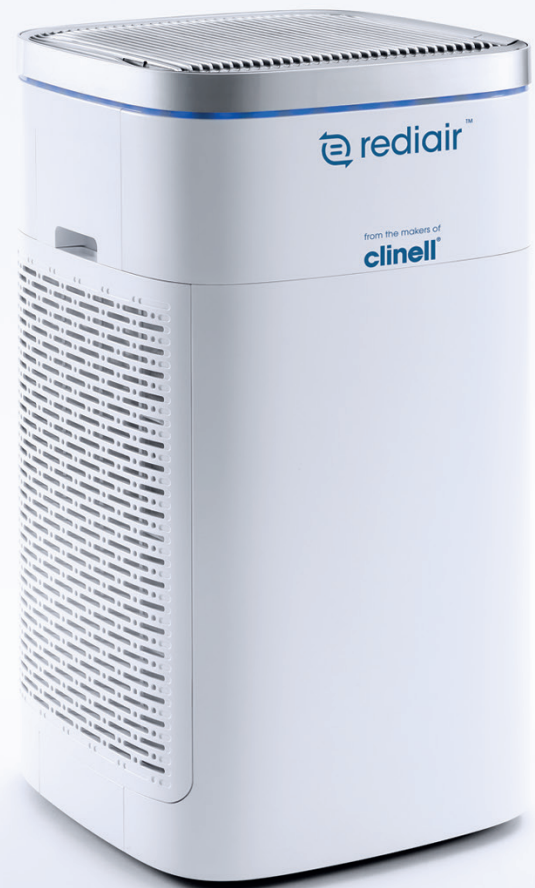

### Ultra quiet

Unique system allows for maximum efficiency at minimum noise levels - 55dB or less.

### Reliability & support

Our market-leading aftersales support means RediAir will always be there when you need it.

**Designed to help reduce the number of viable aerosolised pathogens in the air**
