FEATURES

FEATURES

- The only digital thermometer designed and manufactured specifically for Australian and New Zealand Vaccine fridges
- Automatic alarm signal strictly at +2°C and +8°C with one press deactivation
- Two sensors included: One to measure the fridge air temperature and one to measure the vaccine temperature
- The same ingenuity applied to the ICS PACIFIC Pharma vaccine fridge range... easy and simple to work with and ultra-reliable
- Minimal setup. Simply place one sensor inside the fridge and press the front on/off button
- Min/max temperature remains on display until reset. One push button
- Fold out stand or hook-hang
- 2 x AAA batteries included (easy to change in 12+ months)
