

Product Data

H-1 SMARTSAN Hand Soap

Fragrance Free, Antibacterial

A food grade 2-in-1 foaming soap that cleans hands and kills germs. Suitable for use with a HACCP based safety program. H-1 SMARTSAN is a quality foaming hand soap designed for use where hygienically clean hands are essential. It's economical with approximately 1000 doses per litre and is available in a range of sizes with dispenser options.

Formula – Formulation is environmentally safe and READILY BIODEGRADABLE. Meets Australian Standard AS4351 which defines Readily Biodegradable as product proven to degrade by 70% or more in 28 days under test conditions.

Moisturising – is formulated with advanced skin emollients to condition the skin,

Delivery – Highly effective quality foam and rich lather does not slip off hands, reducing soap wastage while actual consumption is cut in half by the foaming action.

| Feature | Description |
|----------------------------|---|
| Biodegradability (Formula) | Evaluated according to OECD Guideline 301C results found 93.3% of the product biodegrading after 10 days. Therefore defining this product highly biodegradable. |
| Water Savings | Foaming hand soaps uses a lot less water to remove than liquid or lotion soaps. |
| Description | A solution that dispenses as foam. |
| Recycle Material | 50% (High density polyethylene) 50% (Low density polyethylene)  |
| Dangerous Goods | Non Hazardous |
| Quality Assurance | Manufacturing facility quality assurance includes ISO14001:2004 |
| Colour | Green |
| Fragrance | Fragrance Free |
