▌ Tuneable white next-generation LED examination light

▌ SteriTouch® antimicrobial finish

▌ Wall, ceiling, table or trolley mounting

OVERVIEW

Tuneable white illumination has obvious benefits for examination lighting. The new LHH G2-TW heralds a new era for Luxo, offering a high output LED module that can be adjusted to one of three colour temperatures.Its highly flexible self-balancing arm in conjunction with excellent light output gives the LHH G2 TW diagnostic luminaires vast popularity among medical professionals. The frictionless 3d movement and ease of use make the LHH G2 TW the most flexible examination luminaire on the market? and the best in its class.

DESIGN

SteriTouch® antimicrobial white powder-coated aluminium and steel construction. 3D positioning with 3-axis movement and perfect balance. Protective covers on arms to prevent crush-points. Smooth membrane switch for ease of use and cleaning. Fully dimmable.

OPTIC

High output LEDs with refractor lenses for increased light output. LEDs are protected by tempered glass.

ILLUMINATION

25,000lx @ 1000mm.
65,000lx @ 500mm.
Light Field Ø160mm (d50) / Ø350mm (d10)

ELECTRICAL

Integral electronic gear.

LIGHT SOURCE

3500K / 4000K / 4500K CCT LED, Ra95 (R9:98 - 4000K).
