

NUVOair
Portal

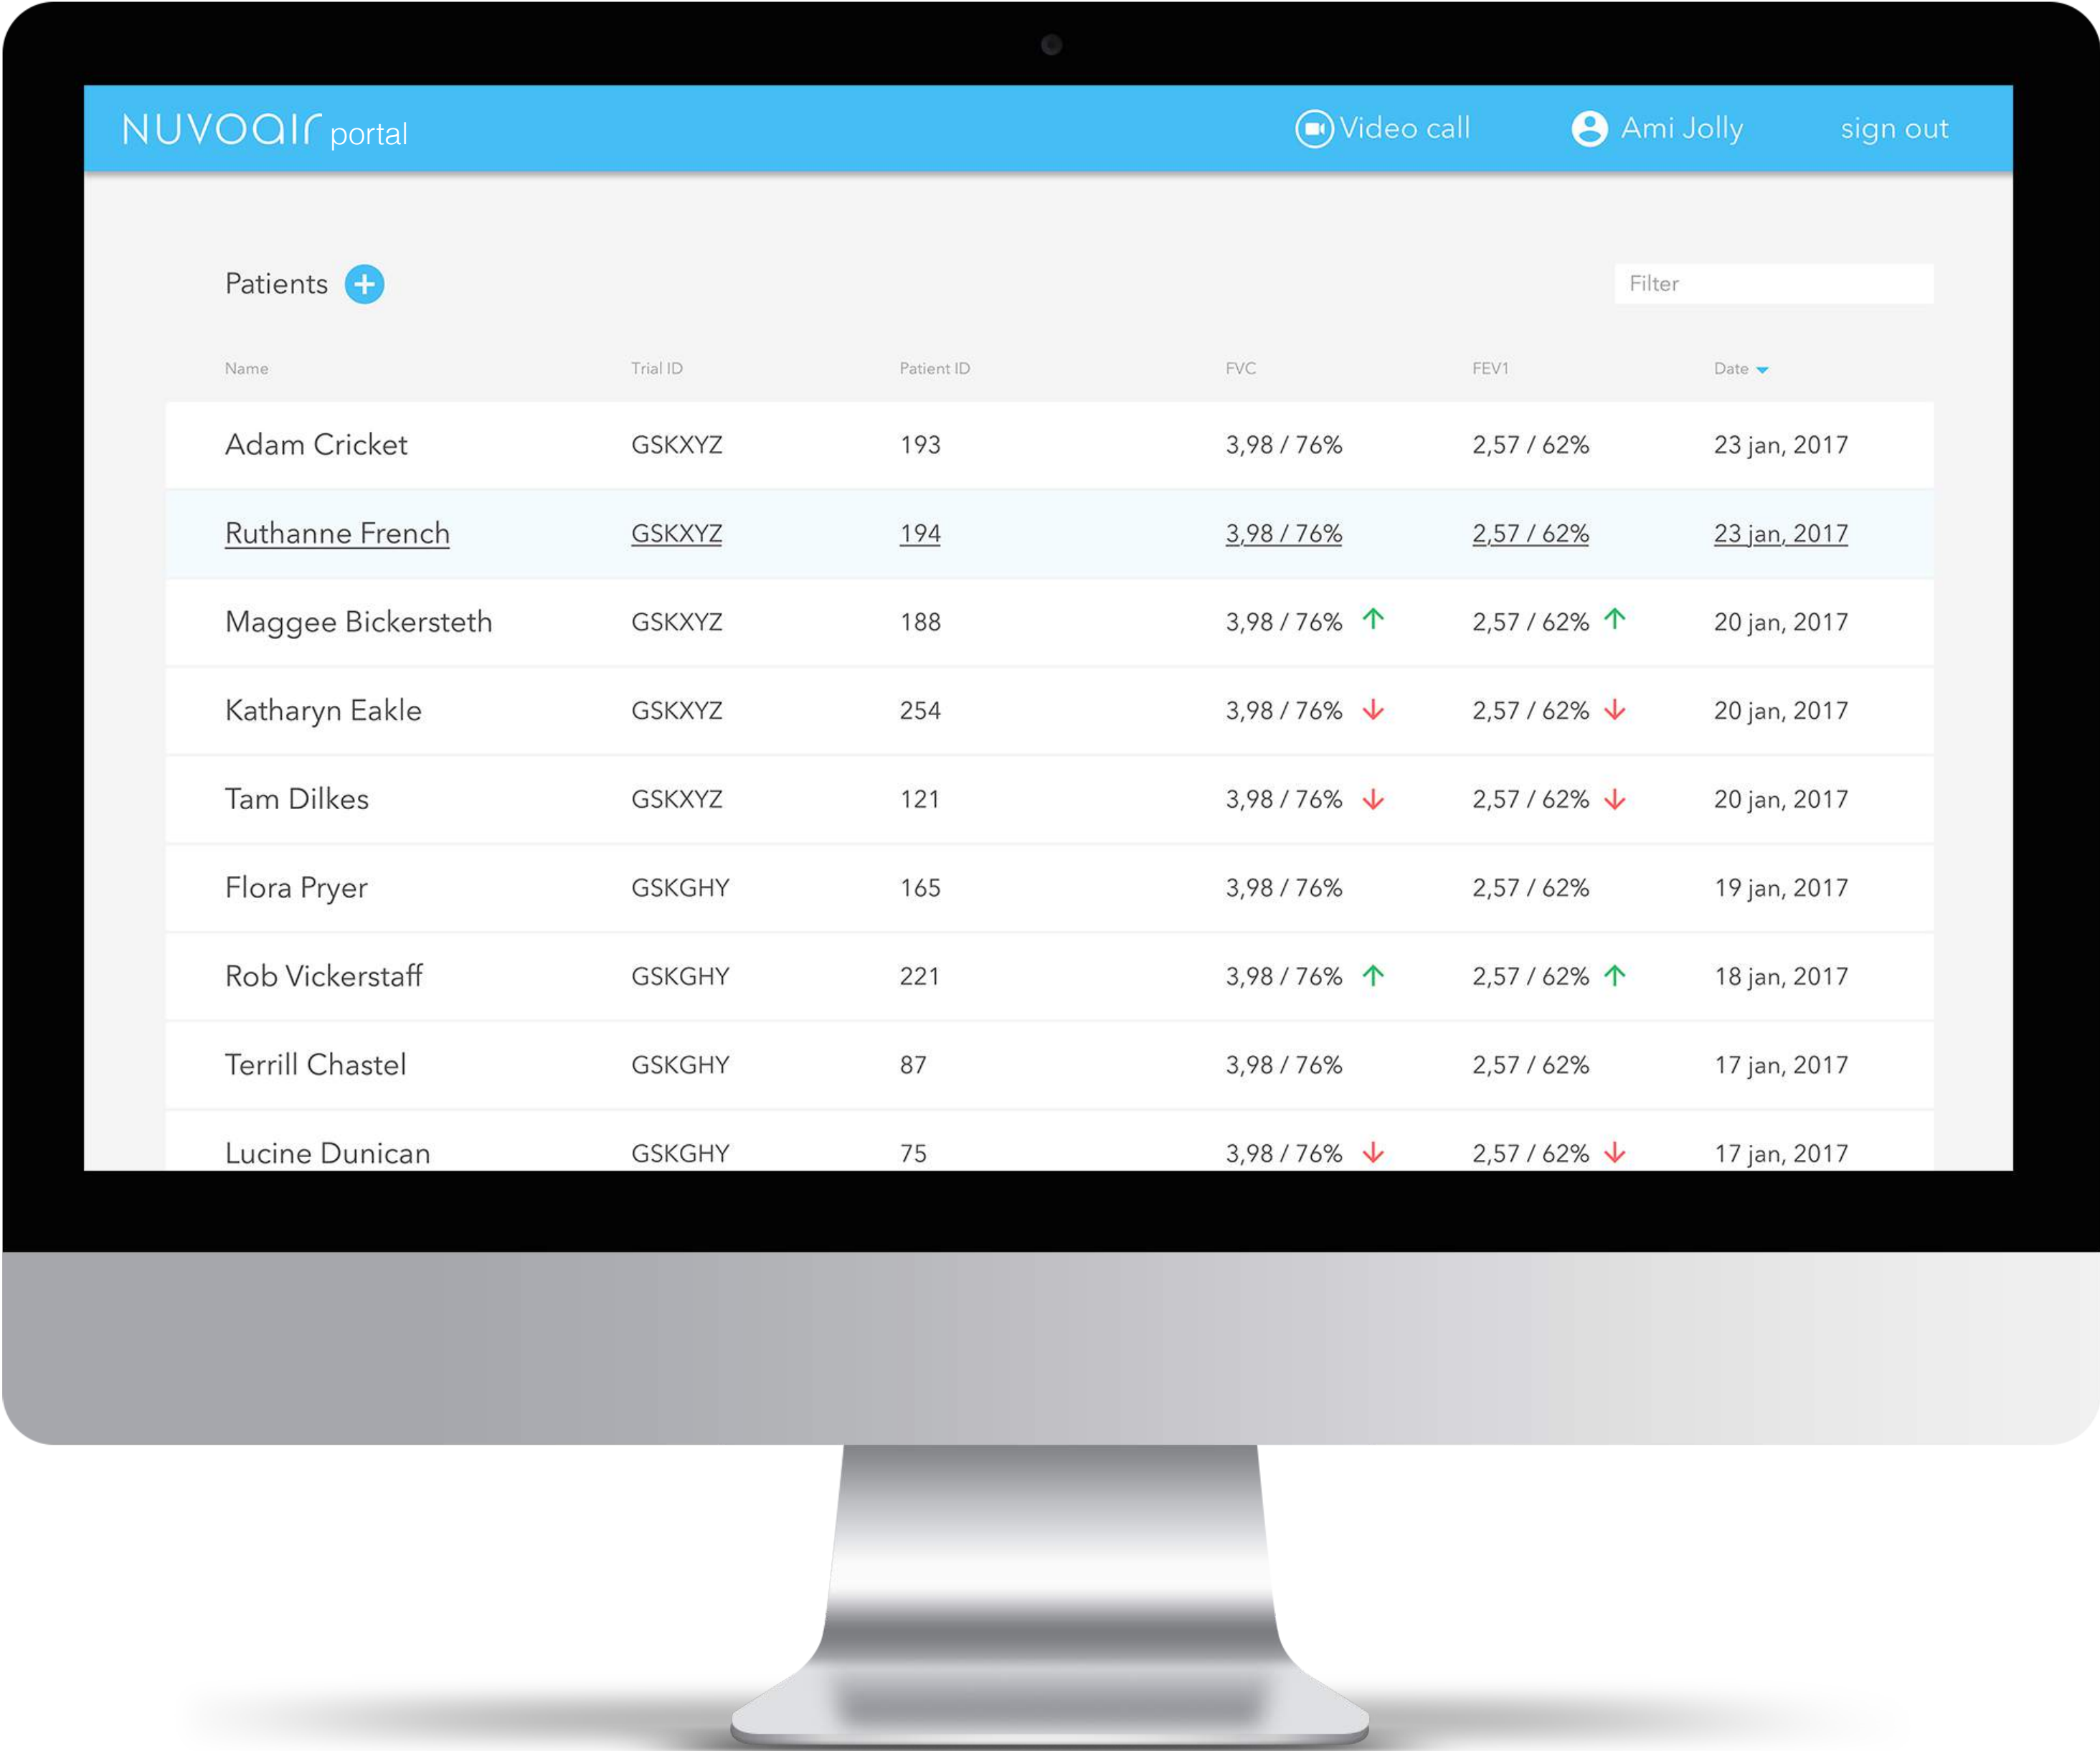

Welcome to the NuvoAir Portal

- The NuvoAir portal allows to **automatically sync spirometry data** between the app and a web-based portal. Easy set-up within minutes
- Designed to enable **remote care setups** for health care professionals in primary care and hospitals but also for clinical trials
- Patient data is **securely stored in a fully encrypted** NuvoAir cloud environment. Patients decide when to start and stop sharing data.
- Used for example by Europe's leading Cystic Fibrosis unit at the **NHS Royal Brompton Hospital** in London, learn more about use-case [here](#)

Easy patient invitation

Dr. Amy Jolly from General Hospital has invited you to share your NuvoAir profile.

Accept the invitation by tapping the following link from your mobile device and follow the instructions.

<http://www.nuvoair.com/accept?key=cn6633>

You can also accept the invite by

1. Open the Air app
2. Tap More / My Account / Share with hospital
3. Enter the code **6CN6633** and follow the instructions.

You can at any moment stop sharing your profile after you have accepted the invite.
