Meet Our Team: Darlene

This year is Darlene's 11th year with Team Medical and 29th year looking after Medical Centres in the Newcastle, Central Coast and Hunter Valley Regions. "I've had the same customers for over 25 years, they were there when I got married when I had my three girls, and Team Medical cares about them as much as I do."

Darlene lives an active lifestyle, regularly going to the gym and doing yoga. At home, she enjoys her two cavoodles.

What are your hobbies? Reading & drinking good coffee (preferably together)

Favourite food? Thai

ADE scales

ADE Medical - Dedicated to healthcare

The company ADE was founded in Hamburg, Germany in 1934.

For more than 80 years, the ambition of ADE to make a difference has inspired every innovation, every product, every customised solution they have brought to the health of many individuals.

All professional medical scales come with a solid 2-year warranty.

The perfect scale for daily use at Hospitals, Clinics and GPs offices.

Strong and sturdy construction. Total capacity 250kg and a fine graduation of 100g. The turning display allows the reading from both sides of the display. Mains and battery operated for maximum flexibility.

Meet Our Team: Douglas

Douglas has worked as an account manager in Medical Supplies for nearly 30 years and enjoys face-to-face contact with his customers to provide personal service, a focus he shares with Team Medical.

He has a decades-long interest in wound management, progressing from the days of Eusol, Milton, and peroxide packs and irrigation, through the early days of changing to moist wound healing and the advancements that have been made over the years in this area.

What are your hobbies? Soccer

Seca 286 - Ultrasonic Weight Station

The seca 286 redefines the technical limit of measuring stations worldwide. Three pairs of ultrasonic sensors record the patient's height in milliseconds and a specially designed digital evaluation algorithm ensures incomparably high measurement precision. Upon request, a voice guidance system enables an individual or series of measurements to connect to the seca directprint or wirelessly transmit to an EMR system. With a 300kg capacity and 50g fine graduation, the high capacity scale accommodates patients of all sizes and provides unparalleled seca quality.

- Capacity up to 300kg
- Graduation: 50g < 150kg > 100g
- Measuring Range: 60 - 210cm
- A wide variety of output options for the measurement results
- Data transmission: seca 360° wireless technology
- Wide variety of functions including TARE, mother/child function, Auto-BMI and many more
- Auto-calibration

Ideal for any busy medical practice. Streamlines fully automatic measuring.

Meet Our Team: Phil

With over 40 years of experience, Phil is a true veteran of the healthcare supplies industry. A Port Macquarie local, Phil is always on the road visiting customers throughout the North Coast and New England Regions.

For Phil delivering on our promises is paramount: *"It's one of the best things about Team Medical. Our team is willing to go the extra mile to deliver for our customers and make their day a little easier."*

One of Phil's favourite pastimes activities is playing golf. You might even catch him with his clubs in the boot of his car — but only during daylight savings time. Of course, servicing customers comes before hitting the fairway.

What is your favourite food? Chinese Satay Combination

What TV series have you been watching recently? Yellowstone
