

OtoClear SprayWash Kit

Recommended for low volume facilities

- Manual, intermittent lavage
- Delivers greater volume compared to syringes or other manual devices
- Efficient design allows for two-handed procedure

AUR7295

\$85.00

- Kit Includes:
- 1 Spraywash Bottle
 - 5 OtoClear Tips
 - 1 Ear Basin

For more information download the product brochure from our website

OtoClear Aquabot

A simple, yet effective solution for a continuous spray system. The Aquabot is a simple, yet effective pressure spray bottle system that attaches the OtoClear Ear Irrigation Tips at the end of the device wand creating a continuous and safe spray for ear irrigation procedures. Healthcare professionals can operate this system with ease through a simple pump and push release motion that offers an uninterrupted spray process.

- Kit Includes:
- 1 Aquabot
 - 5 OtoClear Tips
 - 1 Ear Basin

AUR7275

\$120.55

A simple, yet effective solution for a continuous spray system.

OtoClear Single-Use Ear Irrigation Tips

OtoClear Ear Irrigation Tips, with Gentle Touch Design, directs water to the ear canal wall, with three divergent streams, instead of directly at the Tympanic Membrane. The flared design prevents backslash.

Propulse Ear Irrigator

PROPulse®

This model ProPulse Ear Irrigator combines modern design with classic ProPulse features, enabling more effective patient care. A safety oriented operation provides an easy to use solution to all your Ear Irrigation treatment requirements.

Designed with both the patient and clinician in mind. It has been ergonomically designed - for instance, the handle design makes it easier to remove the QrX™ tip. Tried and tested key ProPulse® features such as easy hands-free operation via the footswitch are maintained

Key features:

- Variable pressure control providing safe water delivery
- Ergonomic handle design facilitates easy tip removal
- Footswitch enables hands-free operation
- ProPulse® Contrapulse® water delivery system
- ProPulse® QrX Technology

DF-750 Portable Suction Unit

Ideal for Home/Light Suction

- Lightweight and easy to carry
- Low noise and powerful suction
- Overflow auto shut-off
- Twin diaphragm pump design
- 1-year warranty

\$599

MDQDF750

- Mains operation
- 20 LPM Flow rate
- 650~700 mmHg max suction pressure
- 1L capacity
- Weight: 5.5kg
- Dimensions: 43L x 22W x 32H cm

1YR
warranty

JX820D-1 Portable Suction Unit

Lightweight and mobile

- Oil-free lubrication piston pump, equipped with over flow protection device and air filter
- Provided with three kinds of electrical sources, AC 100V-240V 50/60Hz, external DC 12V, and internal battery
- Can be conveniently used in many places
- Battery capacity indicator (green, yellow, red)
- Battery duration of full charge: ≥60min
- The case and the container made of plastic material are light, compact, and easy to carry and operate
- 1-year warranty

- Max Vacuum: ≥0.08MPa (600mmHg)
- Vacuum range: 0.02MPa Max vacuum
- Flow rate: ≥20 L/min
- Noise: ≥65dB(A)
- Jar capacity: 1000mL(PC)
- Operating voltage: DC 12V; AC 100V~240V 50/60Hz
- JX820D-1 Battery duration on full charge: ≥60min
- Dimensions: 43W x 42D x 39H cm
- Weight: 5.9kg

DF-660 Suction Unit

Designed for professional aspiration of body fluids, tissues or bones of the patient during or after surgery with the latest innovation in high-vacuum suction.

- Smooth, single-piece design facilitates cleaning
- Aluminium bottle rack offers more space for collection bottles and enlarges the capacity
- Fan designed to prevent heat and makes pump work efficiently
- Low centre of gravity makes moving it stable and smooth
- Depositing box creates extra space for storage
- Foot switch used to operate the machine
- Overload fuses in place if needed
- Oil-less piston pump guarantees high performances with excellent suction and max vacuum
- Maintenance free piston
- 2-year warranty
- Mains operated
- Max 120 L/M flow rate
- 600 mmHg vacuum range
- 3000c.c. x 2pcs Capacity
- Dimensions: 45L x 40W x 90H cm
- Weight: 8.3kg
