

## CryoClear®

The all new, clearly better cryotherapy solution.  
Multi-Use Disposable Cryosurgical Device

CryoClear uses Carbon Dioxide which freezes at -79°C to a depth of no more than 2mm into the skin, delivering a very safe and clinically effective treatment to superficial skin indications.

CryoClear's high efficacy - over 95% - combined with less destruction of healthy tissue makes it perfect for treating age spots, sun spots, and skin tags. Whether used as a stand-alone treatment, or as a combination treatment to chemical peels, facials, micro-needling or dermaplaining, CryoClear offers a better, faster cryotherapy solution with significant benefits for clients and estheticians.

Up to 300 secs of treatment time per device.

### Indications for Use

- Acrochorda - Skin Tag
- Actinic Keratosis - Sun Spot
- Sola Lentigo - Liver or Age Spot

**\$645**

ECO15001001

Ideal for skin tags and sun spots.

## CryoOmega®

Multi-Use Disposable Cryosurgical Device

Clinically effective direct spray of liquid nitrous oxide (-89°C) in a convenient and economical device.

- Delivers a continuous, direct spray of nitrous oxide (-89°C) to treatment site
- Lower operating temperature compared to canister-based systems, provides clinically effective freezing with pinpoint precision
- Simple, hassle-free operation, simply activate the internal cartridge once
- 30 to 45 five-second sprays per device
- Up to 300 secs of treatment time per device

**\$485**

ECO15001001

*CryoOmega® is an ideal choice in portable cryosurgery for physician offices looking for convenience and great first- outcomes.*

## HistoFreezer® Portable Cryosurgical system

A professional-grade product that offers medical professionals an easy and effective method to treat nine different types of skin lesions, including:

- Acrochordon (Skin Tags)
- Actinic Keratosis (Facial & Non-Facial)
- Condyloma Acuminata (Genital Warts)
- Lentigo (Facial & Non-Facial)
- Molluscum Contagiosum (MCV)
- Seborrheic Keratosis
- Verruca Plana (Flat Warts)
- Verruca Plantaris (Plantar Warts)
- Verruca Vulgaris (Common Warts)

ECO KIT Contents:  
2 x 80ml Canisters of HistoFreezer Cryogen  
24 x 2mm Applicators  
36 x 5mm Applicators

**\$144**

ECO10010412

## Cryo Professional

Portable Cryosurgical system

The Cryo Professional can be used to treat various types of benign skin lesions on patients over 4 years old. Examples of the types of skin lesions treatable with the Cryo Professional include:

- Genital warts
- Molluscum Contagiosum
- Fibroma, Acrochordon (skin tags)
- Verruca (Plantaris, Vulgaris, Plana)
- Seborrheic Keratosis (SKs)
- Aktinica Keratosis (AKs), both in the face and on other body parts
- Lentigos, on the face and other body parts

**\$132**

CRUUTM0171

Contents:  
1 x 170ml aerosol dispenser mix  
30 x 2mm foam sticks  
30 x 5mm foam sticks

## CRYOSUCCESS Liquidfreezing

### CryoSuccess with 1 and 4 mm tip

The unique method with direct contact between the liquid and the skin allowing a constant penetrating temperature of -89°C

- Medical Grade Gas
- Low treatment costs
- Simple and secure handling
- Autoclavable tips
- Extremely precise application, with a constant penetrating temperature of -89° C
- Approximately 300 seconds of treatment time per cartridge
- Cartridge can be removed and reattached without wasting gas
- Gas Cartridges have no shelf life or evaporation
- Excellent cosmetic effects; almost no scar formation
- Non bleeding treatment, no anaesthesia required
- Practically painless, therefore suitable for children and sensitive patients

## Walmay Cryospray

- Made in Australia
- 0.35L Flask capacity
- Fixed stainless steel probe with high tensile strength
- Regulator can be positioned on the right or left to suit the operator
- Set of four cone-shaped spray tips for accurate visual aiming during treatment
- One curved spray tip for body orifice surface treatment

# Premier Nitrospray Plus

Premier Nitrospray Plus Cryosurgical Unit constructed of a double-walled vacuum stainless steel container (canister) to hold liquid nitrogen. The outflow track extension port, located on the top of the instrument has a luer-lock connector to easily engage/disengage spray tips and other attachments as required.

## Cryosurgical Unit

- Easy to use, comfortable to hold
- Unobstructed view of treatment site
- 6-8 hours static holding time
- Luer-lock spray tip connector
- 3-year warranty
- Made in the USA

### Includes:

- Cryoflask
- Set of 5 luer-lock spray tips
- Spray tip protector.

### Holding Times:

- Static 6 – 8 hours
- Intermittent Use 3 – 6 hours of patient treatment time

 20 ltr **PACLNC20L** **\$1525**  
 30 ltr **PACLNC30L** **\$1747**

**each dewar includes ladle**

### Gloves Liquid Nitrogen

- Gloves for cryogenic applications
- Length of glove is approx. 35cm
- Can bare temperatures from -180°C to -250°C
- External waterproof material, inner material has a high quality cold-proof sponge and lining

**PACLNCGLV** **\$42.00**

### ActivArmr® 23-700 Glove

- Gloves that shed water, resist salts and chemicals
- Rough-finish PVC coating provides gripping power on wet and slippery surfaces

**AN23700**

**\$32.60**

### Extractor 20/30 Ltr

Liquid Nitrogen extractor for filling cryospray units.

**PACLNCXT** **\$181**

We recommend having a ladle as backup when purchasing an extractor.

### Ladles

10 Ltr  
**PACLNL10L** **\$129**  
 46cm for 10 ltr ladle

20 Ltr  
**PACLNL20L** **\$133**  
 56cm for 20/30 ltr ladle

### Measuring rod

The measuring rod will clearly show the LN2 level of a dewar in inches and centimetres to 92cm/36".
