Simple fast accurate vital signs at a great price

Vital Signs Monitor: SpO2, NIBP, PR

Model PC-900PRO

This small multi-parameter patient monitor is light-weight and user friendly. It monitors the vital physiological parameters including Non-Invasive Blood Pressure (NIBP), Pulse Oxygen saturation (SpO2) and Pulse Rate (PR).

- 3.5" LCD display, easy to read data, alarm events and menus
- Standard with SpO2, PR and NIBP
- Storage for 12000 groups NIBP and 2000 groups SpO2 measurement
- Auto/Manual/Continuous BP mode
- Inbuilt rechargeable lithium battery with 6-hour continuous monitoring
- Nurse call function is available
- USB connectivity for data uploading and software upgrading
- Supplied with Adult & Large Adult NIBP Cuff
- 3-year warranty

Meet our Team: Matt

Matt has seen Team Medical grow from the ground up. Matt became our first Warehouse Team Member when he decided to join the company 'just part-time' to help out his aunt - Marijke. Thankfully, Matt has never looked back; today, he is our Procurement Director, an essential part of our day-to-day operations, and still a much-loved part of the Team.

Outside of work, Matt is also a Team Player, playing Football (Soccer) with his brother Tom (General Manager) and lifelong friend Jake (Operations Manager); once a keen tennis player, Matt's now trying his luck with paddle tennis. We can't forget to mention his beloved dog Boston, a Rhodesian Ridgeback bringing joy and trouble, who also likes to pop up in the occasional video meeting.
