

## Vitalograph asma-1

### Electronic asthma monitor

- Displays % of personal best for both PEF and FEV1
- Automatically assesses test quality and stores best data
- Stores data with date and time stamp
- Stores 600 test sessions
- Detachable flow head makes cleaning simple
- Suitable for multi-subject use with standard size SafeTway® mouthpieces

ECO40000 **\$190\***

## Vitalograph copd-6

### Revolutionary COPD screener for better clinical outcomes

- Identifies those at risk of COPD at the pre-symptomatic stage to allow early medical intervention
- Screens out those with normal FEV1, who therefore don't have COPD, no risk of false negatives
- Displays the key parameters for clinical interpretation including obstructive index and COPD classification (stage I – IV)
- Use SafeTway or Vitalograph mouthpieces

ECO40200 **\$320\***

## WE ARE A BUSINESS FOR GOOD

Trish from customer service recently passed her 13-year anniversary with our sister company, Alpha Medical. With her B1G1 credits, she chose to provide **252 meals to people in vulnerable households in South Africa**. This project goes towards providing meals every day to the underprivileged and their families. This donation would not have been possible without the support of you, our customers.

BIOME7200 **\$45\***

## Lite-air™ spacer

### Collapsible MDI Holding Chamber An Innovative Alternative

LiteAire's unique dual-valved MDI (metered dose inhaler) holding chamber design delivers pop-up convenience and effective drug output at a fraction of the cost.

- Labeled for One Weeks Use
- Pop-Up to Use
- No Natural Latex
- Portable/Stores Flat
- Printed with Soy Ink

NICTH1304 Box/25 **\$203.40\***

## e-chamber ECO spacer

### 100% recyclable flat pack spacer with integrated mask option

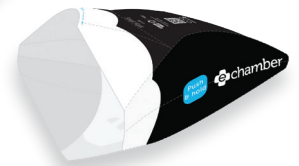

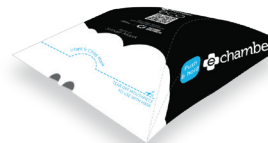

The e-chamber design is completely unique to any other flat pack spacer having a tear-off function to reveal an integrated mask. It can be used as a more efficient way of delivering medication especially to children that struggle with the valve. These spacers can fit anywhere but are still an efficient way to take in asthma medication and travel with you wherever you go. A great portable solution for emergency aid use, travel and first aid kits.

- Unique tear off-function for optional child mask
- 100% Australian made
- 100% recyclable - No plastics, it's 100% cardboard
- A box of 25 takes up the space as 2 regular spacers.

## Breath-A-Tech Spacer

A compact and efficient spacer for use with all standard puffers in the management of Asthma.

Single Patient Use	
Breath-A-Tech Spacer	
MISBATAS	<b>\$27.45*</b>

### Multi Patient Use (autoclavable)

Breath-A-Tech Hospital Spacer	
MISBATAHS10	<b>\$33.70*</b>

Over time even the best spacers will succumb to the extreme conditions of autoclaving. That's why we recommend replacing your Breath-A-Tech Hospital Grade Spacer every 20 autoclave cycles to ensure you're using a quality product in optimum condition every time.
