

MEET OUR TEAM: EMMA
PURCHASING - NSW

Emma can be found in our purchasing team organising the seamless flow of stock from suppliers.

She is a big Lego fan, with her Lego collection worth more than her car. Her other hobbies include photography and hiking. She isn't big on sports but enjoys snowboarding and watching the F1 when she gets the chance.

What is your pet peeve? Loud chewers

What app do you use daily? Pinterest

MEET OUR TEAM: MICHAEL
PURCHASING - NSW

Michael is a key part of our purchasing team with great attention to detail and a love for a good system.

Outside work he likes soccer, tennis, wood work, gardening and some gaming.

What series have you been watching recently? Drive to Survive

What live event have you attended lately? Buddy Franklin's 1000th Goal was basically a mosh pit

WE ARE A BUSINESS FOR GOOD.

Through B1G1 we have been able to offset our carbon emissions by rescuing **348kg of food from going to landfill**. Not only has this reduced the carbon emissions from the landfill mass, but the rescued food is also being used to feed hungry populations instead.

Learn more about our giving impacts at www.teammed.com.au/teamgiving

Primafix Plus
Conformable Retention Tape

PRIMAFIX Plus provides wide area fixation of wound dressings, particularly on joints, frequently moved and contoured parts of the body. PRIMAFIX Plus can also be used for secure fixation of tubes, catheters, measuring devices and instruments.

- Highly conformable
- Hypoallergenic
- Air and water vapour permeable
- Soft and comfortable ensuring patient comfort
- Allows joints to be dressed without constraining movement

Fixomull transparent

Fixomull transparent is a transparent and waterproof polyurethane film coated with a very skin-friendly polyacrylate adhesive. The waterproof film offers optimal protection for the wound. It is waterproof and a bacterial barrier. Its semi-permeable structure allows the skin to breathe thus reducing the risk of macerations.

- Permeable to water vapour
- Lets the skin breathe
- Skin-friendly, also suitable for sensitive skin
- Very good initial and permanent adhesion

3M™ Medical Tapes and Wraps Transforming Patient Care

An important part of delivering a safe, successful patient experience starts with your securement solutions. The products your facility chooses, in addition to how clinicians apply and remove them, may seriously impact clinical outcomes and patient care.

At 3M, we've made it easy to choose the right securement for each patient with four simple categories.

Non-adhesive

3M™ Coban™ NL Non-Latex Self-Adherent Wrap

Other non-adhesive 3M medical securement solutions:
3M™ Coban™ Self-Adherent Wrap (contains latex)
*Stretched length

Multi-purpose

3M™ Micropore™ Surgical Tape
3M™ Micropore™ S Surgical Tape

Other multi-purpose 3M medical securement solutions:
3M™ Transpore™ Surgical Tape

Flexible

3M™ Medipore™ H Soft Cloth Surgical Tape

Other flexible 3M medical securement solutions:
3M™ Microfoam™ Surgical Tape

High-strength

3M™ Durapore™ Surgical Tape

Individually packaged single-patient-use rolls can help protect patients by reducing the risk of cross-contamination.**

7.5cm	3M15273	Box/4	\$36.40	3+	\$33.55

3M™ Microfoam™ Surgical Tape

Highly conformable elastic foam tape that stretches for compression applications, or securing dressings on challenging areas

- Secure adhesion and highly conformable
- Can be used to provide compression
- Water resistant
- Hypoallergenic and latex free

2.5cm	3M15281	Box/12	\$66.45		
5cm	3M15282	Box/6	\$66.45		
7.5cm	3M15283	Box/4	\$66.45		
10cm	3M15284	Box/3	\$66.45		

- Suggested Applications:
- Securing dressings where movement is likely
 - Provides cushioning as needed

3M™ Micropore S Surgical Tape

A silicone based adhesive technology that delivers reliable securement, gentle wear and atraumatic removal.

Silicone adhesives have lower surface tension than traditional adhesives, allowing the silicone to conform quickly to the skin's natural profile. The adhesive level remains constant throughout wear time, resulting in less skin trauma and patient pain at removal.

It is specially beneficial for patients with sensitive, compromised or at-risk skin.

MEET OUR TEAM: SMILJA PURCHASING - NSW

Smilja has been a part of our purchasing team for the past 5 years. In her spare time, she enjoys playing table tennis, badminton and winter sports – which she also loves to watch, along with soccer and basketball. Fun fact: Smilja was born in Croatia!

What is one of your pet peeves? nail chewing
What is your favourite takeaway food? Seafood pasta

Tensoplast Elastic Adhesive Bandage

Tensoplast is an elastic adhesive bandage that provides strong compression and long-lasting support. Manufactured completely from cotton, the bandage is ideal for treatment of all conditions that require limitation of movement. The zinc oxide adhesive helps the bandage remain in place for extended periods, while the water-repellent material protects the bandage from soaking and soiling. Tensoplast is also permeable to air, helping prevent skin maceration.

Tensospray

Tensospray® is a convenient clear spray which leaves a thin protective film over the surface of the skin. This provides an ideal layer for adhesive bandages and tapes, promoting excellent adhesive traction and reducing skin trauma on removal.

Designed for use before the application of pre-wrap, tape or elastic adhesive bandages.

SN7160200	300ml	\$17.40
