## MEET OUR TEAM: ADAM SALES PROJECTS - NSW

Adam has been with Team Medical for 3 years, building on his 17 years in the medical industry. He has a keen eye for new opportunities, collaborative partnerships and is determined to find the best solutions for our customers.

When it comes to writing competitions, Adam has won his fair share of 'in 25-50 words or less' stories. The biggest win was \$10k worth of travel vouchers.

**What sport do you love playing?** Cricket and anything competitive around the office (darts, table tennis, basketball)

**Next holiday destination?** Queenstown NZ (no more travel vouchers left unfortunately)

Waterless Hand Rub

3M™ Avagard™ Antiseptic CHG Hand Rub with 0.5% w/v CHG in 70% v/v Ethanol

- Convenient and effective alcohol-based hand rub (ABHR) formulated for rapid skin disinfection without the use of water
- Contains 0.5% w/v Chlorhexidine Gluconate (CHG) for residual and cumulative efficacy
- Wide range of placement options available
- Gentle on the skin with added moisturisers and emollient
- pH balanced

125ml	3M9250H	\$5.30	10+	\$4.90
500ml	3M9250P	\$13.40	5+	\$12.35

Skin Protection

3M™ Avagard™ General Moisturising Barrier Lotion

- A moisturising barrier lotion containing emollients to prevent the drying of skin and chapping of hands
- Hydrates, nourishes and protects the skin's outer layers, replacing moisture and oils lost by constant hand/body washing
- Prevents cracked, dry skin which may harbour more pathogens and therefore increase the risk of cross-infection
- Leaves a protective barrier on the skin restricting moisture loss
- Ideal for moisturising dry skin during with frequent hand washing and dry winter months

500ml	3M9260P	\$11.25	10+	\$10.40

MICROSHIELD®  
sensiva® Protective Cream

Protecting your hands for optimal skin health

Healthcare workers have a higher exposure to water and other aqueous solutions through frequent hand washing, use of alcohol based hand rubs and the wearing of gloves. All this exposure has the ability to impair the barrier properties of the skin, especially on the hands.

Application areas

- To be applied to clean, dry hands
- Protects hands in wet environments (eg. frequent hand washing or working with cleaning solutions)
- Added protection for vulnerable hands
- Suitable under protective gloves

Features

- Effective protective cream
- Fast absorbing
- Helps to prevent skin irritations
- Contains active ingredient hamamelis
- Colour and perfume-free
- Dermatologically tested

BioCote® protected dispensers

BioCote® antimicrobial protection technology is incorporated at the time of manufacture into the plastic buttons of all DebMed manually operated, wall-mounted skin care dispensers. The button is the primary contact point for people using these dispensers and BioCote® technology provides life-long antimicrobial protection to inhibit the growth of a broad spectrum of bacteria and moulds that could potentially cause illness.

### Hand Hygiene Verification Device

Teaching hand washing with GlitterBug Potion

GlitterBug Potion is applied to hands and rubbed in all over, including the wrist. It dries invisible. When you wash your hands, the GlitterBug Potion will be removed with good handwashing technique. However, the Potion will still be present on any areas that are missed by the washing, and this will show up under UV light.

### GlitterBug Potion

240ml ONSLGPOT \$51.40

### GlitterBug UV Torch
