A Planet Friendly Hollowware Range

## Introducing EnvirOn

Disposable | Compostable | Biodegradable

The new EnvirOn range of medical hollowware is made from sugarcane bagasse, a readily renewable resource and an environmentally friendly alternative to plastics.

- Medical and food grade (EC 1935/2004)
- Contains no plastic, wax coating or bleach
- Sturdy, rigid and puncture resistant
- Smooth surface finish allows for wiping before use
- Compostable in under 6 months

# SUSTAINABLE PRODUCTS... *it's the E in ESG*

You can take steps towards a greener and more sustainable healthcare practice by choosing environmentally friendly products. Explore our range of eco-conscious solutions, and learn more about how you can minimise your practice's ecological impact with your product choices on pages 428-429 of this catalogue.

## Compostable Medical Trays

Single use to avoid cross-contamination and support infection control practices Haines® Compostable Medical Trays divert waste from landfill as they are made of 100% sugarcane bagasse, medical grade quality, and complies with EN13432 for compostability. They are latex, wax and plastic free. TGA registered.

#### Benefits

- Diverts waste from landfill
- Cuts down time to wash and restock reusable dishes
- Improved infection control
- Multipurpose for wound care items, medication and other consumables

Compostable in 90 days.  
100% sugarcane.
