

Sharpoint SURGICAL SUTURE

Reducing surgical costs so you can focus on what matters.

Sharpoint delivers on savings, with quality and precision.

Designed to provide superior performance at an attractive price point. Sharpoint was engineered to match and even exceed the quality of premium sutures in the market, while ensuring it remains cost-effective for your practice.

Cost-Effective Solution

By choosing Sharpoint, you are making a strategic move towards reducing your suture spend without sacrificing the quality you demand for your patients.

Take control of your operating costs with Sharpoint Surgical Sutures.

Non-Absorbable

LOOK™ sutures are ideal for wound closure because they provide ease of penetration and excellent bite in delicate tissue.

With optimal ductile strength, the LOOK™ brand product needles are resistant to breakage, yet malleable enough for good manoeuvrability in tight areas.

Silk

Non absorbable black braided silk suture

Watch one of our popular webinars now on-demand

Refresh your knowledge on common minor surgical techniques and skills with this excellent resource for GPs. This webinar will provide information on the appropriate materials and knotting techniques for a variety of different procedures in order to provide a cure for your patient, preserve their function and give the best possible cosmetic outcome.

NON ABSORBABLE SUTURES

Dafilon®

Non-absorbable synthetic monofilament suture made of polyamide polymers.

Silkam®

Non-absorbable braided and coated suture, made of natural silk filaments.

Optilene®

Non-absorbable monofilament surgical suture made of polypropylene and polyethylene.

Find the entire range on the B. Braun website

ABSORBABLE SUTURES

Monosyn®

Mid-term absorbable synthetic monofilament suture made of glyconate.

Monosyn® Quick

Short-term absorbable synthetic monofilament suture made of glyconate.

Novosyn®

Mid-term absorbable braided and coated suture made of polyglactin 910.

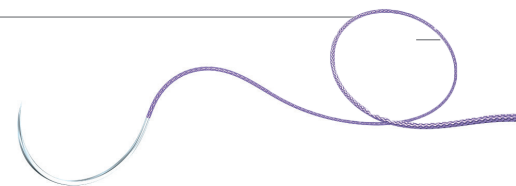

Novosyn® QUICK

Short-term absorbable braided and coated suture made of polyglactin 910.

NEEDLE POINT SHAPES

- Taper Round in the portion behind the tip with flattened oval shape body
- Round Bodied Makes the smallest possible hole
- ▼ Reverse Cutting Triangular tip – cutting edge on the outer convex curvature, i.e. flat surface closest to edge of incision. Less likely to cut off tissue
- ▽ Reverse Cutting Micropoint Better penetration and less resistance
- △ Conventional Cutting Cutting edge on inner convex curvature

Dafilon®

An uncoated, non-absorbable monofilament nylon suture made from polyamide polymers.

Indications: Gastrointestinal surgery, Gynaecology & Obstetrics, Urology, Skin closure (intracutaneous, subcutaneous), Paediatrics, Ligatures and Soft tissue closure in all specialties

The Monofilament Advantage

- Very low trauma due to smooth passage through the tissue
- Reliable knot and high knot tensile strength
- Ideal degradation profile for every healing process of tissue layer
- Longitudinal elasticity of monofilament sutures promotes adaptation to any sudden movements of the wound and helps reduce patient discomfort during healing.

Monosyn® Quick

Short-term absorbable synthetic monofilament suture made of glyconate.

Indications: Plastic surgery, Gynaecology & Obstetrics, Urology, Paediatrics, Odontology, ENT and Maxillofacial

LiquiBand® Optima

The fast, precise and controlled topical skin adhesive.

BETTER WOUND CLOSURE STARTS WITH A BETTER TOOL

LiquiBand® Optima Topical Skin Adhesive has a unique winged applicator with precision tip for accuracy and control, delivering excellent cosmetic results.

✓ Precision Applicator

The precision tip delivers accurate application, making the device ideal for traditionally difficult areas. The in-built flow control wings allow the clinician to easily control the volume of adhesive applied.

✓ Quick 10 Second Dry Time

Rapid wound closure in approximately 10 seconds offering faster patient turnaround. Only one application required for strong and secure closure.

✓ Ambient Storage

Can be stored between 5°C and 25°C reducing the need for refrigeration.

✓ Microbial Barrier Protection

Adhesive acts as a protective waterproof barrier, allowing patients to shower without compromising the wound closure. The waterproof, microbial barrier reduces the risk of infection.

✓ No-Sting Adhesive

Provides comfortable closure, minimising trauma — ideal for children.

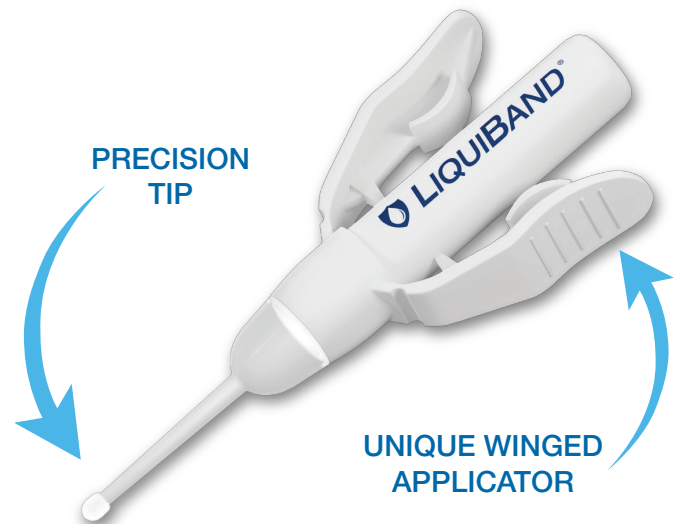

✓ Outstanding Patient Benefits

Excellent cosmetic results combined with minimal discomfort throughout treatment and healing.

✓ Pre-Assembled Unique Winged Design

Ready-to-use straight out of the box. To activate the device, simply squeeze the wings until a cracking sound is heard. The transparent reservoir provides visualisation of remaining adhesive throughout the application process.

★★★★★ PREMIUM PRODUCT

Fast, precise and controlled skin closure *LiquiBand® Optima* is ideal for use on a range of acute wounds including scalp and facial lacerations.

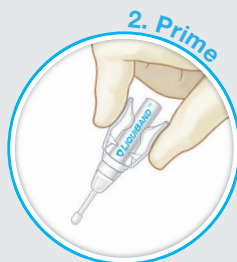

LiquiBand Optima mini .35g Applicator

CUSTOMER SERVICE - NSW

Meet our Team: Belinda

Belinda joined the team nearly 3 years ago in a new role of Customer Service Supervisor, and has recently moved into being our Customer Service Manager. She brings a wealth of experience, laughter and kindness to our customer service teams. *"I love the feeling of being in a big family who are helping to make a difference by providing for the medical industry and donating via B1G1. My favourite thing is knowing that there is constant support from colleagues who genuinely care."*

Funnily enough, Belinda once hated coffee and now can't live without it (1 a day though).

Meet Our Team: Erin A

Erin is our Brisbane Customer Service Team Leader. She has been in the Team Medical family for 6 years now and is always going out of her way to help our customers and team.

For Erin, there is no place like home as she prefers staycations rather than overseas trips. Did we mention she love, love, loves coffee!

What app do you use almost daily? Sudoku

What is one of your biggest pet peeves? Crumbs in the butter

CUSTOMER SERVICE - QLD

Meet Our Team: Sam

Sam first started his Team Medical journey in the Melbourne warehouse. His hunger for success, excellent work ethic and belief in the company and its values has since seen him move first into an Assistant Manager role and now an Account Manager.

Sam thrives in a team environment and is always eager for a new challenge.

He likes music and enjoys playing the guitar in his free time.

What sport do you love playing? Basketball
