SALES PROJECTS - NSW

Meet our Team: Adam

Adam has been with Team Medical for 5 years, building on his 19 years in the medical industry. He has a keen eye for new opportunities, collaborative partnerships and is determined to find the best solutions for our customers.

When it comes to writing competitions, Adam has won his fair share of 'in 25-50 words or less' stories. The biggest win was \$10k worth of travel vouchers.

What sport do you love playing? Cricket and anything competitive around the office (darts, table tennis, basketball)

Waterless Hand Rub

3M™ Avagard™ Antiseptic CHG Hand Rub with 0.5% w/v CHG in 70% v/v Ethanol

- Convenient and effective alcohol-based hand rub (ABHR) formulated for rapid skin disinfection without the use of water
- Contains 0.5% w/v Chlorhexidine Gluconate (CHG) for residual and cumulative efficacy
- Wide range of placement options available
- Gentle on the skin with added moisturisers and emollient
- pH balanced

500ml	3M9250P	\$15.10	5+	\$13.95

Skin Protection

3M™ Avagard™ General Moisturising Barrier Lotion

- A moisturising barrier lotion containing emollients to prevent the drying of skin and chapping of hands
- Hydrates, nourishes and protects the skin's outer layers, replacing moisture and oils lost by constant hand/body washing
- Prevents cracked, dry skin which may harbour more pathogens and therefore increase the risk of cross-infection
- Leaves a protective barrier on the skin restricting moisture loss
- Ideal for moisturising dry skin during with frequent hand washing and dry winter months

Meet our Team: Matthew

Starting out his career as chemist in New Zealand, it did not take long for Matt to move from the lab to the sales world. He has since worked several jobs in the industry, bringing him across the Tasman, before finally being drawn to Team Medical by the fun and supportive team environment that the company provides.

Here at Team Medical, Matt works hard on developing our existing portfolios in wound, surgical and infection control into the hospital sector. It is job Matt relishes – he loves the autonomy and size of the challenge as well as the rewarding nature the work provides.

When he's not on company time, Matt loves being out on the water – whether that be sailing or surfing. You may also find him busting a trick or two on his snowboard during the cooler months. He's also quite talented at calling the shots and running set plays out on the rugby field.

MICROSHIELD® Hand Hygiene Range

MICROSHIELD®
by schülke

Routine Wash and Skin Care

MICROSHIELD® Handwash

A mild neutral formula for routine and social hand washing.

---------	--	-------	---------	-----	---------

MICROSHIELD® sensiva® Protective Cream

Protecting your hands for optimal skin health

Healthcare workers have a higher exposure to water and other aqueous solutions through frequent hand washing, use of alcohol based hand rubs and the wearing of gloves. All this exposure has the ability to impair the barrier properties of the skin, especially on the hands.

Application areas

- To be applied to clean, dry hands
- Protects hands in wet environments (eg. frequent hand washing or working with cleaning solutions)
- Added protection for vulnerable hands
- Suitable under protective gloves

Features

- Effective protective cream
- Fast absorbing
- Helps to prevent skin irritations
- Contains active ingredient hamamelis
- Colour and perfume-free
- Dermatologically tested

BioCote® protected dispensers

BioCote® antimicrobial protection technology is incorporated at the time of manufacture into the plastic buttons of all DebMed manually operated, wall-mounted skin care dispensers. The button is the primary contact point for people using these dispensers and BioCote® technology provides life-long antimicrobial protection to inhibit the growth of a broad spectrum of bacteria and moulds that could potentially cause illness.

WE ARE A BUSINESS FOR GOOD

Last year **we gave 3000 days of access to solar lighting** for Indian families living underprivileged lives in poor rural areas and tribal communities. Families living in these areas do not have adequate facilities to get an electricity connection. The trigger for this donation was performance related - **75% of our overall calls to customer service team were answered within 10 seconds.**

This project assists these families by installing a solar lighting unit into their households, giving them access to clean and sustainable energy. Your ongoing support of Team Medical helps create happier and healthier homes.
