

Clinell Detergent Wipes

Multi-surface detergent wipes for general cleaning and damp dusting that provide a superior level of cleaning.

- Patented formula: Developed from a safe formulation for an ultra-low smear clean
- Optimal cleaning: Even stronger cleaning power, developed specifically for use in healthcare environments.
- Convenient and effective: Disposable wipes that are ideal for general cleaning and damp-dusting.
- Alcohol and disinfectant free: Safe to use. The same technology can be found in many shampoos and skin products.

Pkt/215 20 x 28cm CLDCDW200 \$24.70 6+ \$22.05

Speedy Clean Wipes

Ready-to-use hospital grade, anionic neutral detergent wipes which leave a streak free finish on surfaces. Ideal for cleaning surfaces and equipment in health-related environments. The single-use application improves infection control by avoiding cross contamination.

- Included as a Class 1 Medical Device ARTG No: 125529
- Pleasantly perfumed and fast drying, leaving surfaces streak free
- Ideal for cleaning surfaces and equipment in the hospital environment

Tub/100 18 x 25cm WHI190328 \$21.35 4+ \$18.75
 Pkt/80 18 x 25cm WHI190336 \$11.65 4+ \$10.25

Sonidet

Neutral Instrument and Equipment Detergent

Sonidet is a highly active neutral liquid detergent specifically designed for both machine and manual cleaning. Sonidet is odourless, non-staining and is a safe detergent for the removal of hospital and surgical soils.

- pH neutral - safe for use on most instruments and devices
- Free rinsing and bacteriostatic
- Suitable for surface cleaning - floors, walls, tables, benches and equipment

5 Ltr \$47.85 2+ \$41.65

WHI190377

500ml bottle (empty) WHI610607 \$3.35

Dilution:
 Fresh ready to use solution should be made daily.
 5ml SONIDET per litre of water

DETERGENT DILUTION

A common cause of instrument spotting and rusting issues is caused by instrument detergents not being diluted accurately. Check the dosage section on your bottle label to ensure you are diluting your detergent correctly. This will protect the longevity of your instruments and save you money.

ProDet Clinical Detergent

Medical Instrument and Equipment Detergent

Optimal cleaner for the removal of organic substances and bio-soil, especially blood, protein, fats and lipids. Advanced formula is designed to meet all Medical and Dental Standards, Guidelines and Protocols - including AS/NZ 4187:2014 & AS/NZ 4815: 2006. Employs the latest surfactant technology for superior cleaning performance.

Prodet is ideal for manual and ultrasonic cleaning of instruments, and for effective cleaning of all equipment and environmental surfaces (benches, trolleys, tables, lighting etc.).

- Powerful cleaning technology yet gentle on all instruments & equipment
- Very low foaming & free rinsing
- Corrosion inhibitor to protect instruments
- Mild alkaline formulation for maximum effectiveness
- Non-hazardous & Odourless
- Effective in hard and soft water
- Bacteriostatic

Quality education is powerful.

At Team Medical, we pride ourselves on choosing and sharing valuable and relevant content with our customers. This can be in the form of:

- ✓ Educational videos from our suppliers
- ✓ Events with renowned speakers
- ✓ Watch on Demand webinars to revisit content
- ✓ Topical industry articles
- ✓ Educational posters for your practice
- ✓ Relevant marketing emails

Whilst there, bookmark our events page and sign up to our events newsletter. You can even watch our latest webinars on demand, and view our library of product education.

MARKETING - NSW

Meet our Team: Adrian

To write a complete origin story for Adrian would require more pages than any catalogue or even a full-length epic novel could ever possibly provide (especially nowadays with the rising cost of paper). His age is a mystery that may never be solved. What is known is that he was born fully grown and has since dedicated his days to making the world a better place than it could ever possibly be without him.

Adrian came to Team Medical with a background in media, journalism and writing, which he enjoys putting to good use as part of our marketing team (he wrote his own profile, if you hadn't already guessed).

When he's not highly caffeinated and on the grind at work, or spending as much quality time as possible with his two-year-old son, he carries a passion for all things film and loves reading adventure and thriller novels. He is also a self-certified film critic, unsolicited opinion-giver, and an 'all-round awesome dude'.

clinell®

Biodegradable Universal Wipes

Environmentally friendly without
compromising efficacy and quality

For cleaning and disinfecting surfaces and equipment.

Wipes derived
from 100% PEFC
certified wood.

Effective against
MRSA, VRE,
Norovirus and more.

Proven to degrade
in anaerobic
(landfill) conditions.

clinell® Universal Wipes (Class IIb)

Kills 99.999% of germs

Clinell® Universal Wipes

2-in-1 surface detergent and disinfectant wipes, designed for real-world application. The Clinell Universal Range is ideal for everyday cleaning and disinfection. Clinell Universal Wipes have been formulated for surface compatibility to avoid damaging medical devices without compromising antimicrobial efficacy.

- Verified for compatibility with 100+ pieces of equipment
- Kills COVID-19 in 30 seconds
- Total surface cleaning and disinfection in one wipe

Antimicrobial activity

Patented formula with wide spectrum antimicrobial activity, including MRSA, VRE and Norovirus. A mix of biocides with different mechanisms of action designed to mitigate against bacterial resistance.

2-in-1 clean and disinfect

Low-level instrument grade disinfectant wipes that act as both a disinfectant and detergent, replacing the need for multiple wipes and surface cleaners - increasing compliance and reducing cost.

Trusted brand

Developed by doctors, widely used in Australia. Clinell Universal is a Class 11B medical device for use on non-critical therapeutic devices.

Compatible with a wide range of surfaces and equipment

Approved by leading manufacturers for equipment and surface disinfection. Broad compatibility with materials used throughout healthcare environments. Ideal for use on: mattresses, table tops, taps, door handles, ventilators, pulse oximeters, ECG machines, wheelchairs etc. and safe to use on rubber.

Meet our Team: Brenda

Brenda is our Purchasing Manager and has worked with Team Medical for 6 years. Her role is to ensure our warehouses are all stocked up with quality products.

Originally from the Philippines, she has been in Australia for 24 years, but is always excited to return whenever she can for a well-deserved holiday. In her spare time, she enjoys going for a nice relaxing walk, watching movies, and going to the beach.

What is your favourite takeaway food? Chinese

What is your favourite animal? I love dogs

Keep your practice areas safe for your staff, patients and their families.
