

## Choose the right stethoscope to help you perform at your best.

3M™ Littmann® Stethoscopes feature adjustable headsets with soft-sealing eartips. Select Littmann stethoscopes are designed with tunable technology to give you the ability to hear different frequency sounds by simply adjusting the pressure applied to the chestpiece. Get the reliable acoustic performance, high quality and comfort you need with a Littmann stethoscope.

Love your stethoscope.

The compact and sensitive 3M™ Littmann® Classic III™ Monitoring Stethoscope is the perfect instrument for clinicians who monitor and assess children or adults in non-critical care environments. Manufactured with strong yet lightweight materials for hours of comfortable use.

- Useful in non-critical care environments such as a general practice, OB/GYN, ambulatory clinic or urgent care
- Fun and vibrant; match color and finish to your personality
- Designed for use with adult and paediatric patients
- Tunable, dual-sided stainless steel chestpiece with open or closed bell
- Non-chill bell sleeve for greater patient comfort
- Soft-sealing eartips provide optimal comfort and excellent sound occlusion

## Built to Hear More.

Sturdy and refined, the 3M™ Littmann® Cardiology IV™ Diagnostic Stethoscope helps isolate subtle sounds\* so you can hear changes in your patients in the most critical and challenging environments. Designed to help you listen for hard-to-hear sounds, including aortic stenosis, S3 gallop murmurs and faint pulmonary anomalies.

- Useful in critical care and challenging environments such as the ED, ICU, Cardiac ICU, step-down unit and other dynamic locations
- Ergonomic and high profile construction; 40% larger chestpiece and 60% deeper bell than 3M™ Littmann® Classic III™ Monitoring Stethoscope
- Designed for use with adult and paediatric patients
- Tunable, dual-sided stainless steel chestpiece with open or closed bell
- Non-chill bell sleeve for greater patient comfort
- Soft-sealing eartips provide optimal comfort and excellent sound occlusion

\* Better audibility of high-frequency sounds (adult side, firm pressure) compared to 3M™ Littmann® Cardiology III™ Stethoscope

## 3M™ Littmann® Core™ Digital Stethoscope

2022  
**Authorised Dealer**

Littmann's most advanced stethoscope yet. Now you can get everything you love about Littmann stethoscopes – superior acoustics, comfort and quality – with up to 40x amplification, active noise cancellation and mobile sound wave visualisation.

**Hear more. Way more.**

Up to 40x amplification (at peak frequency, vs. analog mode) and active noise cancellation to reduce background noise

**Comfort. Confidence.**

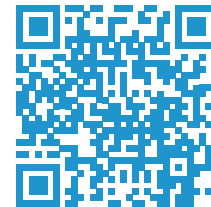

Snap tight, soft sealing eartips conform to ears for an excellent acoustic seal and comfortable fit.

**Hear it the way you want to.**

Quickly toggle between analog and amplified listening modes – and use the tunable diaphragms on both sides of the double-sided chestpiece to hear high and low frequency sounds.

**Discover new details with digital.**

Connects to EKO software, allowing you to visualise heart sound waveforms in real time. Plus, use AI to aid in the detection of heart murmurs. (Subscription required).

**Do more than ever before.**

The Littmann CORE Digital Stethoscope connects to EKO software to capture, analyse and share.

- Capture - save and annotate 15, 30, 60 or 120-second recordings in the secure dashboard
- Analyse - create a library of heart sounds to monitor the progression of a disease or for education
- Share - Securely share recordings with colleagues

Eko Software is available on your Smartphone or PC. Phone not included.

## 3M™ Littmann® Master Cardiology Stethoscope

**Outstanding acoustics: The highest in Littmann mechanical stethoscope range.**

The Master Cardiology meets the standards of healthcare professionals who demand very high acoustic response. It offers a handcrafted stainless steel chestpiece with the portable convenience of a single-sided stethoscope.

The tunable diaphragm conveniently alternates between low- and high-frequency sounds with a simple pressure change on the chestpiece.

- Superior performance
- Dual-lumen tubing: Two sound paths in one tube eliminates the rubbing noise of traditional double tubes.

MANAGEMENT - NSW

## Meet Our Team: Ray

Ray is our Corporate Sales Manager and Flu Vaccine Guru. He has worked alongside Marijke and Pieter for over 20 years. When Marijke was getting Team Medical off the ground, she called Ray, who was travelling in Europe to see if he was ready for another adventure; thankfully, he's never looked back.

As an animal lover, he is big on bushwalks and getting out and about in nature with his three boys and Coco, the family's chocolate labrador. We were impressed by how calmly he was once able to remove a sizeable Diamond Python from his chicken coop.

Ray is super competitive, sparking a lot of friendly rivalry at Team Medical, particularly through cricket and NRL (go Newcastle Knights – or anyone playing the Roosters, Broncos or Storm).

**What is your biggest pet peeve?** Running out of coffee beans

SALES - QLD

## Meet Our Team: Kellie

Kellie is one of our original Brisbane Team Members. After working as our Customer Service Team Leader for 5 years, Kellie has since moved into Key Accounts and Sales, looking after the needs of some of our biggest customer groups. Kellie's ability to multi-task without breaking a sweat, passion for delivering top customer service and knowledge of our processes makes her an extremely valuable asset.

Born and raised on the Gold Coast, she loves surf boat racing, going to the beach and watching the Brisbane Lions (AFL) play. That's when she's not running around after her two energetic boys.
